

DVDs for Smithsonian Affiliate shops

Smithsonian Networks has just released *Stories from the Vaults*, hosted by Tom Cavanaugh, which takes viewers behind the exhibit halls on an insider's tour of the private rooms, high-tech vaults and labs of the Smithsonian Institution. In each episode of this series, Smithsonian curators, experts and scientists open the collections and share the stories behind the nation's treasures.

This DVD is now available for purchase for your museum's shop- just another way to highlight the Smithsonian Affiliation to your visitors.

Stories from the Vaults is only one of 21 Smithsonian Networks DVDs to choose from. The catalog has titles related to science, nature and history- including the Emmy award winning series, *Nature Tech* and Parent's Choice winners *Critter Quest* and *Loose at the Zoo*.
